There are six super cute little books available which together cover all of the alphabet sounds. These books are called: *Are you Right?* books because the child will need to read the word, then turn the page to see if they are right.

The corresponding picture has been placed on the back of the page to stop the child from being distracted by the picture and also to stop them from 'predicting' the word by looking at it.

The first book concentrates on the sounds c, a, t, d, o, g and f. All of the 13 words that make up this book are made from those sounds.

Book number two introduces the sounds x, v, n and i. All of the 13 words contained in this book use at least one of the sounds above and also the sounds covered in the first book.

The other four books concentrate on the following sounds:

- * Book 3 - z, p, w and e.
- * Book 4 - r, m, j and u.
- * Book 5 - l, h and k.
- * Book 6 - b, s, y and qu.
