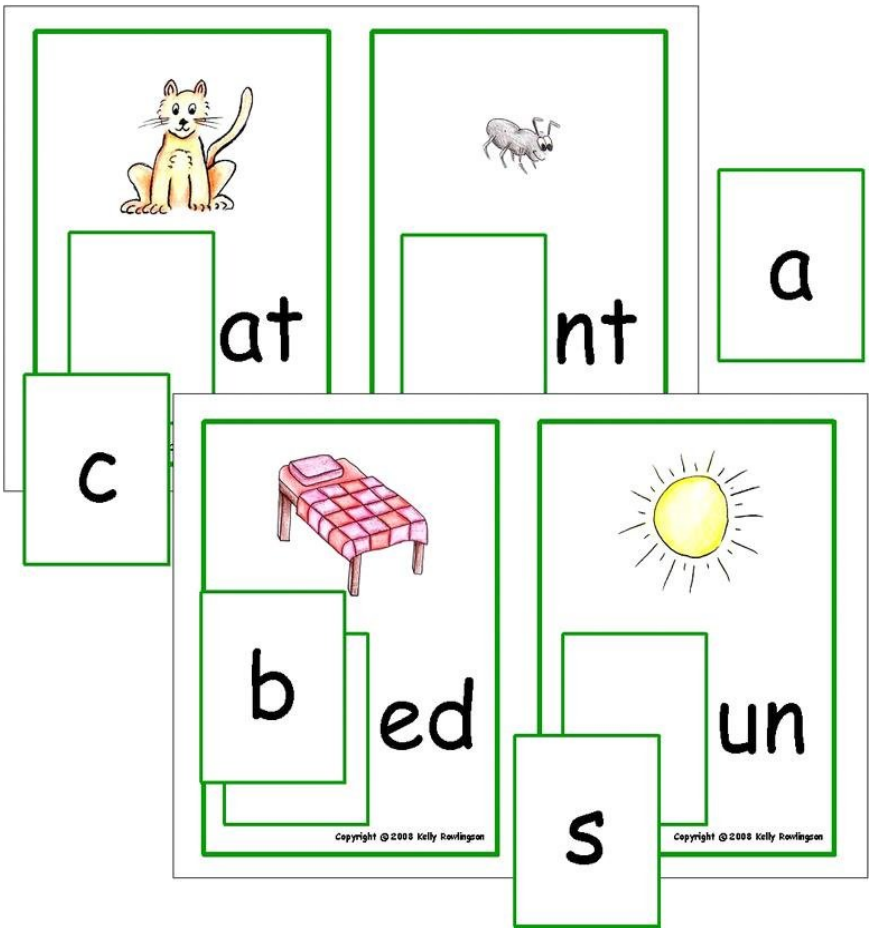
Alphabet Wall Frieze

Suitable age: Preschool up
Prior knowledge required: None
Format: PDF
Pages: 12
Colour/Black and White: Colour



There are 26 cards in all, one for each of the alphabet sounds. The focus sound on each card can be taken off and re-applied using velcro or blu tac. The words used on each of the alphabet cards ONLY use the alphabet sounds.

There is an option of two different sounds for the letter 'y'. Its initial sound: y-el-l-ow or its long vowel sound: c-r-y. If following the *A Step at a Time* curriculum we recommend the long vowel sound.

While the child is young the frieze can be placed high up so the child cannot take the pieces off. During that time the adult can draw the child's attention to the sounds and their written symbols (letters).

Two storage cards (A5 card that eight sounds can be stuck onto) are provided for each frieze so the child can walk around their room putting the letter sounds onto the correct spaces.

The cards are quite compact (4 fit onto an A4) so that they can fit into a bed-room.
