

# Interactive Wall Frieze

**Suitable age:** Preschool up

**Prior knowledge required:** None

**Format:** PDF

**Pages:** 12

**Colour/Black and White:** Colour

There are 28 cards in all covering the long vowel sounds, ng, y, ey, oa, oar, ai, ay, air, oi, oy, ea, soft c, soft g and gu.

The focus sound on each card can be taken off and re-applied using velcro or blu tac.

While the child is young the frieze can be placed high up so the child cannot take the pieces off. During that time the adult can draw the child's attention to the sounds and their written symbols (letters).

Two storage cards (A5 card that eight sounds can be stuck onto) are provided for each frieze so the child can walk around their room putting the letter sounds onto the correct spaces.

The cards are quite compact (4 fit onto an A4) so that they can fit into a bedroom.
