Format: PDF

Pages: 34

Colour/Black and White: Colour

This is a wonderful game which gives children practice at reading, spelling and identifying sounds.

The 'Standard Set' which you purchase separately for \$14.95, includes the interactive boards, star interactive pieces, letter formation chart, instructions and cubes (to be made up). Once you have the 'Standard Set' you can purchase one or all of the following two different levels:

- 1) Alphabet Sounds
- 2) The sounds: oo, ee, sh, ch, th, el, ar, or, er, ir, ur, ere, eer, are and oor

This is game two, the second version of the Read, Spell and Say Game. In this game the alphabet sounds will be revised and the sounds listed in the title will be used in the reading, spelling and saying sound tasks. Many of the words chosen for this game are high frequency words.

In a nutshell, this game is played by one of the children throwing a cube (like a dice). The picture that is face up indicates what task the child will need to complete and also which playing card to turn over. So if, for example, the cube lands with the reading picture face up, then the child will need to turn over one of the reading cards and read the word. If the child reads the word correctly then they pick up one of the star interactive pieces and place it on a square in the reading picture row/s of their interactive board. The next child can now have their turn.

There are:

- 108 different reading cards.
- 41 sound (say) cards; and
- 64 different spelling cards.
