

Spelling Activities

Suitable age: Preschool up

Prior knowledge required: None

Format: PDF

Pages: 7

Colour/Black and White: Colour

This resource offers four different interactive activities where the child will be learning to spell.

The first activity can be completed when they have the sound knowledge of c, a, t, d, o, g and f. Each new activity will introduce a collection of new sounds, but will also cover many of the sounds from the previous activities.

These activities can be used for children to learn how to segment to spell (e.g. bus = b-u-s), children that are struggling or children that enjoy spelling activities.
