

Word and Picture Matching Games

Suitable age: Preschool up

Prior knowledge required: None

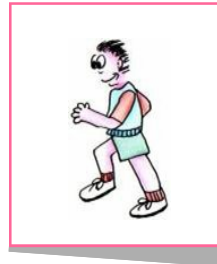

Format: PDF

Pages: 9

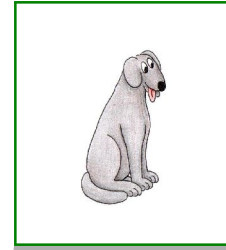

Colour/Black and White: Colour

In the Word and Picture Matching Games resource there are 63 different words that need to be matched to their corresponding pictures.

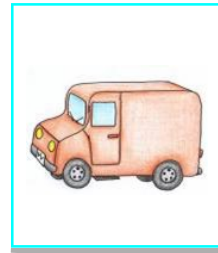

The first nine words only use the sounds: c, a, t, d, o and g. The following nine words introduce the sounds: f, x, v and n but also revise many of the sounds introduced in the previous set. The rest of the words follow the same pattern—introducing new sounds and revising old.
