

Write and Wipe — My First Sound Book

Suitable age: 3 up

Prior knowledge required: None

Available
in hard copy

Available by
downloadable file

This book has been designed to introduce young preschoolers to phonics through the novelty of a write and wipe re-usable book. *My First Sound Book* is aimed at children who don't have any interest in learning to write letters, or learning to read, but do enjoy doodling.

An example of correct letter formation is given on each page, but whether the child wishes to practice it is up to them (and you). It isn't the focus of the page, the activity is.

The fun activities, which each focus on a letter sound, range from mazes, following tracks and finding objects to drawing over symbols.

As each A5 page has a laminate covering, it can be wiped clean and written on again.

This book will be the starting platform for both the child and the parents. In particular it will give parents the ideas and confidence to play with sounds and words in general, encouraging phonological and phonemic awareness.
